

PORAMO Rood

Country:	Belgium
Alcohol degree:	19 %
Serve at:	+/- 16°C
Serve with:	aperitif, dessert, foie gras, different types of cheese
Description:	This is an excellent aperitif wine that has a lot in common with Porto. It has an intense nose of fresh raspberries, subtle hints of cherries and above all pure aromas of walnuts and a little smokiness. PORAMO has a firm texture and is very mouthfilling. The powerful and tasteful aromas assure a long aftertaste. You will find a nice harmony between sweetness and alcohol degree. This is what makes Poramo an excellent alternative for Porto.
