Description:	<p>This is a Port wine of one single harvest which is produced in a year of excellent quality. 2008 was such an excellent year. This SILVA REIS LBV was bottled after no less than 5 years of maturation on barrels. Afterwards the Port will age further in the bottle, to avoid losing colour and aroma. During the first 10 years the aging process goes very slowly. This Port SILVA REIS LBV 2008 is made of a selection of the best wines of 2008. This is a corpulent Port with a intense and beautiful colour and a fine taste. The SILVA REIS Port has won serveral medals because of its high quality and is known as one of the best brands on the market. No wonder that Manual José da SILVA REIS has given his name to this excellent Port.</p>
